

**Third Gate Road Issues & Maintenance;
Budgeting for 2010**

Rev. March 22, 2010, bsc

March/April ~\$1000

- Grade out potholes in main traffic area. Spring (above bridge) ditched deeper due to road saturation.
- Test recycled asphalt aggregate on one section – e.g. between Haendle/Schultz (1x transfer)

Late April/May ~\$3000

- Grade out washboards, bring rock onto road from sides. [\$500-1000]
- Gravel to rough/bedrock areas [\$2000-2500]

September ~\$2000

- Culverts: (B'gieW'gie) 12" @ Simpson's (low-spot/swamp). 6-8" @ Lawner (A-frame/low-spot), another past Walton (tilt-out). [\$1500-2000]
- Drop Fern Leaf's driveway culvert ~8" lower (Third Gate just beyond pond). [bill for]

October (after ~1" rain) ~\$3000

- Ditch touch-up, grading where needed, drain rock where needed [\$2500-3000]

Future

- Grade 3 spur roads to last turn-around before gate (Big John, Live Oak, Unnamed)
- Widening / turn-outs / turn-arounds if Fire Council monies.
- Continued attention (widening) to Schultz narrowing before pond due to failing ditching.
